**Baboucar S. B. Sajaw**

**Public Examinations Examined** Thomas Kellaghan, Vincent Greaney, 2019-11-19 High-stakes public examinations exert a dominant influence in most education systems. They affect both teacher and student behavior, especially at the middle and upper levels of secondary education. The content of past examinations tends to dictate what is taught and how it is taught and, more important, what is learned and how it is learned. By changing aspects of these examinations, especially their content and format, education systems can have a strong positive impact on teacher behavior and student learning, help raise student achievement levels, and better prepare students for tertiary-level education and for employment. Examination agencies, many of which have followed the same procedures over decades, can learn from the successes and failures of other systems. This book addresses current issues related to the development, administration, scoring, and usage of these high-stakes public examinations, identifying key issues and problems related to examinations in many emerging market economies as well as in advanced economies. The book's primary audience consists of public examination officials on national, regional, and state examination boards, but the book should also be of interest to senior education policy makers concerned with certification and learning achievement standards, to academics and researchers interested in educational assessment, to governmental and education agencies responsible for student selection, and to professionals at development organizations. "This extremely well-written and comprehensive book offers a timely review of the diversity of public examination practices worldwide; of the tensions between examinations and learning; and of the technical expertise involved in the creation of valid, reliable, and fair assessments. It reminds us that as "the diploma disease" takes hold with an ever-greater intensity at every stage of education worldwide, and the commercial business of testing flourishes, those concerned with educational quality and meaningful learning must be on guard to prevent the assessment tail wagging the educational dog." Angela W. Little, Professor Emerita, Institute of Education, University College London "This book is very well structured and written and draws on the authors' remarkable global knowledge across countries and histories. It will be a great asset both to administrators responsible for examinations and to academics and other professionals who seek to understand the nature and impact of examinations of different types and in different settings." Mark Bray, UNESCO Chair Professor of Comparative Education, University of Hong Kong; and former Director, UNESCO International Institute for Educational Planning "I am sure that *Public Examinations Examined*, which thoroughly analyzes the practice of public examinations in

different countries and makes profound and well-grounded conclusions, will arouse very great interest and will serve to further improve public examinations.†? Victor Bolotov, Distinguished Professor, Higher School of Economics, National Research University, Moscow; member, Russian Academy of Education; and former Deputy Minister of Education, Russian Federation

**On Results of the Reform in Ethiopia's Language and Education Policies** Catherine Griefenow-Mewis,2009 This publication reflects the results of the Ethiopian education reform as well as the exceptional efforts that multiethnic Ethiopia undertakes in order to cope with the challenges arising from the population explosion. More than 55 per cent of the 77 million Ethiopians are under the age of 18 years. The great social and political changes started in Ethiopia at the beginning of the 1990s have resulted in the substitution of the educational system based on Amharic and English by one which uses a multilingual approach. According to the Ministry of Education 22 out of the 84 languages spoken in Ethiopia are now used as media of instruction in primary schools. The book presents the lectures delivered at the workshop On the Results of the Reform in Ethiopia's Language and Education Policy held at Addis Ababa University in April 2006 by Ethiopian education experts and a German research team. Their contribution has facilitated a subsumption into the historical context and has given insight into the analyses of the use of 8 Ethiopian languages in primary schools in different regions of the country.

**Documenting the Ethiopian Student Movement** Bahru Zewde,2010 Analyzes the role of intellectuals and students in Ethiopian state power before and after the Italian Occupation (1936-1941).

**Journal of Ethiopian Studies** ,1993

The Quest for Socialist Utopia Bahru Zewde,2014 In the second half of the 1960s and the early 1970s, the Ethiopian student movement emerged from rather innocuous beginnings to become the major opposition force against the imperial regime in Ethiopia, contributing perhaps more than any other factor to the eruption of the 1974 revolution, a revolution that brought about not only the end of the long reign of Emperor Haile Sellassie, but also a dynasty of exceptional longevity. The student movement would be of fundamental importance in the shaping of the future Ethiopia, instrumental in both its political and social development. Bahru Zewde, himself one of the students involved in the uprising, draws on interviews with former student leaders and activists, as well as documentary sources, to describe the steady radicalisation of the movement, characterised particularly after 1965 by annual demonstrations against the regime and culminating in the ascendancy of Marxism-Leninism by the early 1970s. Almost in tandem with the global student movement, the year 1969 marked the climax of student opposition to the imperial regime, both at home and abroad. It was also in that year that students broached what

came to be famously known as the national question, ultimately resulting in the adoption in 1971 of the Leninist/Stalinist principle of self-determination up to and including secession. On the eve of the revolution, the student movement abroad split into two rival factions; a split that was ultimately to lead to the liquidation of both and the consolidation of military dictatorship as well as the emergence of the ethno-nationalist agenda as the only viable alternative to the military regime. Bahru Zewde is Emeritus Professor of History at Addis Ababa University and Vice President of the Ethiopian Academy of Sciences. He has authored many books and articles, notably *A History of Modern Ethiopia, 1855-1974* and *Pioneers of Change in Ethiopia: The Reformist Intellectuals of the Early Twentieth Century*. Finalist for the Bethwell A. Ogot Book Prize to the author of the best book on East African Studies, 2015. Ethiopia: Addis Ababa University Press (paperback)
